Progression Table	
Progression Indicator	Skills
Excelling	<p>I have applied a very good range of light, midtones and shade to create the 3D form and make the skull look as realistic as possible.</p> <p>I have applied texture through a wide variety of mark-making techniques, which show excellent control and understanding of where it should be applied to make the skull realistic.</p> <p>There are strong contrasts in the work and a shadow which has been placed in the correct position in reference to the light source.</p> <p>The overall presentation of the drawings are of an excellent quality and demonstrate a high level of skill and understanding of the fundamentals of drawing.</p> <p>The evaluation is personalised, highlighting the strengths and challenges. Describing 'what went well' and 'even better if' it was to be attempted again.</p>
Advancing	<p>I have applied good control when using shade, midtones and light.</p> <p>Light and midtones as well as shade have been applied with some variation in value and contoured on the skull to show it is a 3D form.</p> <p>More than one type of mark-making technique has been applied to describe visual texture, seen on the skull.</p> <p>Contrast can be seen to show depth in the drawing, especially through the eye sockets.</p> <p>Reference to a shadow is evident.</p> <p>The presentation is very good and the annotation includes appropriate art vocabulary.</p>
Securing	<p>I have shown some control in my pencil shading and included some variation of value.</p> <p>Some marks have been applied that reference detail and texture on the skull.</p> <p>There is more variation in the shading which has made some parts slightly more 3D.</p> <p>I have started to use contour shading.</p> <p>The presentation is good and I have described what the work is in my annotation using some art vocabulary.</p>
Beginning	<p>I have applied basic shading techniques to fill in the space on the skull, however, there is no variation of tone.</p> <p>Limited skill and mark-making is evident.</p> <p>My presentation is satisfactory and I have annotated my work to say what I have done.</p>
